Many people are familiar with their own astrological sign because Sun sign astrology is popular in today's culture. However astrology is a complicated tradition and many other techniques exist. These techniques can be used to gain greater understanding of a person's nature, but also of their current opportunities. A Birth Chart is produced that astrologers can interpret. This you probably know. What you may not know is that astrologers can also calculate a chart for each of your birthdays, and these charts can predict the patterns that you might experience in the forthcoming year. This is because each year the Sun does a full revolution of the Zodiac. Therefore each year the Sun returns to the exact position of your Birth Chart Sun. Wherever you are in the world astrologers can calculate this birthday chart. This chart is called a Solar Return; hence the saying "many happy returns". This chart represents the opportunities and challenges of the forthcoming year. It should also be read in conjunction with your Birth Chart to fully understand the lessons and opportunities available to you in any given year.

When using these Solar Return interpretations, please bear in mind that, inevitably, every chart will contain some contradictory influences. As a result certain interpretations of different items in the same chart may seem difficult to reconcile. However, this may still be an accurate reflection of your chart, as it is likely that you do experience conflicting desires, events and circumstances in your life. Usually an astrologer will synthesise these apparent contradictions in order to present a cohesive and meaningful interpretation of the dilemmas of the chart.

Please also be aware of the fact that each person possesses both positive and negative influences in the chart, and therefore in their lives. The challenge is to accept and overcome the negative influences, so that we can successfully focus on manifesting the positive traits or qualities. This report outlines both influences, and therefore helps us to rise to the challenges during any given year. Any advice given is meant to be an aid the individual in taking responsibility for his or her own life. Ultimately the decision rests with each individual.

CHART POINTS

THE MOON

THE MOON IN AQUARIUS

When the Moon is in this sign you may find that you are more interested in exploring new ideas and friendships rather than close intimate relationships. This year strive for more autonomy in your private life. Throw out your preconceived ideas about personal matters and explore new options. If young you may leave home for the first time, exploring a new lifestyle and discovering your emotional strengths and weaknesses. If a mature person you may feel the urge to make changes in your home environment. Children leaving home may be spotlighted. The theme this year in your personal life is to think outside of the square, be innovative, explore new ideas and go with the flow. You have the chance of welcoming a freer and more flexible lifestyle.

THE MOON IN THE 4TH HOUSE

It is time to look at the emotional needs of yourself and your family, and your feelings regarding home. Loved ones may seem irrational. So may your own feelings on home and family, but you need to face them, for if you suppress them they may erupt in strange ways. Where is home? Who is your family? Where do you belong? What do you need to feel safe and secure in your home? Reflect on the feelings that are surfacing, and take considered action. Changes may need to be made in your home, someone new may become part of your household. Reach out to your loved ones, heal past hurts, and create channels of communication that are warm and loving.

THE SUN

THE SUN IN GEMINI

Your Sun is in the zodiac sign of Gemini indicating that you're curious, lively, versatile and talkative, with a need for constant stimulation. You're adept at keeping your finger on the pulse of several things at once, like a juggler. Many times you weave your way successfully and skilfully through your many activities leaving others in somewhat breathless awe of your abilities. However, there are also many times when everything comes tumbling down around you and you're left to pick up the pieces which have been scattered throughout your life. Communication is a key element in your life, taking the form of lively conversation, letter writing, study, numerous telephone calls or even travelling to various destinations to satisfy your curiosity. You've a tendency to liven up even the quietest environment, sometimes even introducing a chaotic element. Life is never dull around you.

THE SUN IN THE 9TH HOUSE

Time to give praise for all that is in your life, and the major theme for the year is growth. If you have been focussed on self-development now is the time to put into practice what you have learnt. If you have been through dark times you are ready for a spiritual awakening. You may have the opportunity to travel, and people in high places may encourage or even sponsor you. A new chapter of study, such as astrology, religion or philosophy may open up new vistas. People in high places may encourage, or even sponsor, you to pursue your talents in foreign lands. Sports may also be a focus. It is time to seek recognition through promotion, awards, publication or public speaking.

23RD DEGREE OF GEMINI

Part of Body: Head of the humerus

Sabian Symbol: Three fledglings in a nest high in a tree.

ASPECTS OF THE SUN

CONJUNCTION MERCURY Orb 9°26' Applying

"Change" is the key word this year. You may be restless, eager to change your life, or fretful, concerned about impending differences. You receive news of changes, or perhaps take action yourself after weighing the pros and cons. You may also talk to friends, family and colleagues about how you would like to do things different and decisions that you need to make. Go with the flow, taking action when you can and garnering as much support as possible. Young people may be of help, and any care taking role is likely to help you understand yourself and your own situation better and once again may instigate a change of heart or mind. You are likely to gain many insights this year, and alter your opinions and beliefs.

OPPOSITION SATURN Orb 1°41' Applying

This is your year to develop hard work, stick-to-itiveness and common sense, although you may have to struggle through a few obstacles. Patience is required as you systematically work to achieve your ambitions. Your recreation time is likely to be sparse, so use it wisely. Apply yourself with diligence in any area that provides structure or new skills, or gradually build up new avenues when the old ones cease to work. You may be required to tighten the purse strings, work within a budget, or direct your funds to renovating your home or restructuring your business. Pay attention to the structures that uphold your life whether these are the buildings, your finances, partnerships or investments. Right now you are working hard as an investment in your future happiness.

MERCURY

MERCURY IN GEMINI

The ideas are flowing fast this year, and you are mentally sharp, with Mercury in an Air sign. Gatherings provide plenty of stimulation, and you may take a real interest in other people's news, as well as news of the world at large. You may even delight in juggling many activities. Your challenge is to avoid being too distracted by social events and chatty people, or you may have difficulty concentrating. If your path in life demands results, make sure you apply yourself to the tasks at hand and follow through when you give your word. Ask help if needed, delegate where possible. Don't try to talk your way out of trouble, or lash out with a sharp tongue. A good time for networking and improved communications.

MERCURY IN THE 9TH HOUSE

This year you strive to develop your full potential by setting goals and achieving them. However if you have your mind stubbornly set on a particular path there could be arguments and opposition from others, and it is possible that your loved ones have entirely different ideas. Mercury can be a little tricky and you may have set your ideals too high, or perhaps you are not free to set off quite yet. It is time to make plans, discuss options and remain adaptable. Your lesson is diplomacy --- to negotiate your way along the path. A person or event can trigger a quest for knowledge. By the end of the year you may have achieved your goals, or at least are on the desired path.
